EDUCATION

Bachelor of Technology, Computer Science, Bennett University *2023-2027*
Cumulative GPA: 9.6
Relevant Coursework: Data Structures, Algorithms, Operating Systems, Database Management, and Networks

SKILLS

Technical Skills:	TensorFlow, PyTorch, MySQL, Docker, AWS (EC2 – basics)
Languages:	Python,C++ & SQL
Soft Skills:	Communication and Teamwork, Problem Solving, Adaptability, Creativity

PROJECTS

Student Performance Prediction (Deployed Web Application)
Python, Pandas, NumPy, Scikit-learn, Docker, AWS EC2,Flask

- Implemented and compared multiple machine learning models including Linear Regression, Decision Tree, Random Forest, and AdaBoost to predict student academic performance.
- Evaluated models using performance metrics and selected the best-performing model for final predictions.
- Containerized the application using Docker for consistent and scalable deployment.
- Deployed the application on AWS EC2, configuring security groups and running Docker containers.
- Developed a web interface for real-time performance prediction.
- Live Demo: http://13.127.214.86:5000/

Document Summarization System
Python, TensorFlow, NLP (NLTK, Sumy), TextRank,Flask, SQLite, HTML/CSS, JavaScript

- Developed a document summarization system supporting PDF, DOCX, and TXT files using classical NLP techniques.
- Implemented extractive summarization (TextRank) as the primary offline method, ensuring full functionality without internet access.
- Built a Flask-based backend to handle file uploads, summarization workflows, and history management. Deployed as a Flask web app with support for PDF/DOCX parsing and CLI usage.

Brain Tumor Segmentation using U-Net and TensorFlow
Python, TensorFlow, Keras, OpenCV, NumPy, Pandas,Flask

- Built and trained a U-Net-based deep learning model for brain tumor segmentation on MRI scans, achieving 99% accuracy through effective preprocessing, augmentation, and post-processing techniques.
- Developed and locally deployed a Flask web application that allows users to upload MRI images and view segmentation results, with visualization for model validation.

CERTIFICATES

Coursera - Introduction to Machine Learning, Data Structure & Database Management Essentials
NPTEL- IIT Kharagpur Software Engineering

ACHIEVEMENTS

Secured 1st place in Project Showcase 2024
Dean's List of Excellence
