

Candidate Shortlist Report

Generated on: 2026-05-10 00:03:50

5.pdf

Recommendation: Hire

Weighted Total: 9.35/10

Summary: This candidate is an exceptional fit with a high-level technical background and relevant internship experience. Their portfolio demonstrates advanced problem-solving capabilities and direct alignment with the internship responsibilities.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	10/10	Candidate possesses an extensive technical stack including Python, C++, SQL, Docker, AWS, and Linux, aligning perfectly with the job requirements.
Experience (25%)	9/10	Relevant internship experience in ML engineering and freelance full-stack development demonstrates practical application of required skills.
Education (15%)	8/10	Currently pursuing a relevant B.Tech degree with a strong academic standing.
Projects (20%)	10/10	Portfolio includes complex, high-impact projects like automated braking algorithms and precision sensor tracking systems.
Communication (10%)	9/10	The resume is professionally structured with clear, concise descriptions of technical achievements.

7.pdf

Recommendation: Hire

Weighted Total: 8.35/10

Summary: A highly capable candidate with a strong project portfolio and excellent technical skills. Their ability to build complex, secure systems makes them a top contender for the internship.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	9/10	Strong proficiency in the required stack including Python, TypeScript, AWS, Docker, and CI/CD pipelines.
Experience (25%)	7/10	While lacking formal internship experience, the candidate demonstrates significant project-based experience in system design and security.
Education (15%)	8/10	Strong academic performance in a relevant B.Tech CSE program.
Projects (20%)	9/10	Projects like the AI-powered FIR platform and automated vulnerability scanner show high technical maturity and innovation.
Communication (10%)	8/10	The resume is well-organized and highlights achievements effectively.

2.pdf

Recommendation: Hire

Weighted Total: 7.75/10

Summary: This candidate brings valuable internship experience and a solid technical foundation. Their work on AI pipelines and full-stack development aligns well with the internship's technical requirements.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	8/10	Strong command of Python, JavaScript, and API-related technologies required for the role.
Experience (25%)	8/10	Direct experience as an AI Engineering Intern provides valuable exposure to production-grade systems.
Education (15%)	8/10	Currently pursuing a relevant B.Tech degree with high academic marks.
Projects (20%)	7/10	Projects are relevant and demonstrate a good understanding of full-stack and AI integration.

Communication (10%)	7/10	The resume is clear and adequately describes the candidate's technical contributions.
---------------------	------	---

1.pdf

Recommendation: Maybe

Weighted Total: 6.95/10

Summary: A strong candidate with good academic performance and creative project work. While lacking formal technical work experience, their leadership and technical skills show potential for growth.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	7/10	Good technical skills in Python, JavaScript, and web development frameworks.
Experience (25%)	6/10	Experience is primarily focused on student leadership rather than technical internships.
Education (15%)	8/10	Strong academic record in a relevant B.Tech program.
Projects (20%)	7/10	Projects demonstrate creativity and the ability to integrate various APIs.
Communication (10%)	7/10	The resume is well-structured and easy to read.

4.pdf

Recommendation: Maybe

Weighted Total: 6.55/10

Summary: An academically brilliant candidate with a strong foundation in data analysis and programming. They would benefit from gaining more exposure to cloud and DevOps tools required for the role.

Dimension Breakdown

Dimension	Score	Justification
-----------	-------	---------------

Skills Match (30%)	6/10	Solid foundation in C++, Python, and data analysis, though lacking in cloud and DevOps skills.
Experience (25%)	5/10	No formal internship experience, though the candidate has strong academic achievements.
Education (15%)	9/10	Exceptional academic performance with a 9.8 CGPA.
Projects (20%)	6/10	The stock analysis project is well-executed but limited in scope compared to full-stack requirements.
Communication (10%)	7/10	The resume is clear and highlights academic excellence effectively.

6.pdf

Recommendation: Maybe

Weighted Total: 5.85/10

Summary: A capable student with a decent project portfolio and foundational skills. Further development in cloud platforms and testing principles would strengthen their profile.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	6/10	Good grasp of web development and C++, but lacks cloud and testing experience.
Experience (25%)	5/10	No formal internship experience listed.
Education (15%)	7/10	Currently pursuing a relevant B.Tech degree.
Projects (20%)	6/10	Projects are functional and demonstrate basic full-stack capabilities.
Communication (10%)	6/10	The resume is adequately structured.

6.json

Recommendation: No Hire

Weighted Total: 4.95/10

Summary: The candidate has a basic technical foundation but lacks the depth and breadth of skills required for this internship. Their project experience is limited to fundamental tasks.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	5/10	Basic skills in C, C++, and Linux, but lacks the breadth of required modern web and cloud technologies.
Experience (25%)	4/10	No internship experience.
Education (15%)	6/10	Relevant B.Tech degree.
Projects (20%)	5/10	Basic shell project shows fundamental understanding but lacks complexity.
Communication (10%)	5/10	Adequate clarity.

5.json

Recommendation: No Hire**Weighted Total: 4.35/10**

Summary: This candidate lacks the necessary technical depth and project experience required for the role. Their current skill set is too narrow for the internship responsibilities.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	4/10	Limited skill set covering only basic Python and web development.
Experience (25%)	4/10	No internship experience.
Education (15%)	6/10	Relevant B.Sc. degree.
Projects (20%)	4/10	Portfolio consists of a single basic portfolio site.
Communication (10%)	5/10	Adequate clarity.

4.json

Recommendation: No Hire

Weighted Total: 4.3/10

Summary: The candidate has a very limited technical profile and lacks the necessary project experience. They do not meet the requirements for this internship.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	4/10	Basic skills in Java and SQL, but lacks modern development tools and cloud experience.
Experience (25%)	4/10	No internship experience.
Education (15%)	6/10	Relevant B.Tech degree.
Projects (20%)	4/10	Single basic project with limited complexity.
Communication (10%)	5/10	Adequate clarity.

3.pdf

Recommendation: No Hire

Weighted Total: 0.95/10

Summary: The resume is essentially blank and provides no evidence of skills, experience, or projects. It is not suitable for consideration.

Dimension Breakdown

Dimension	Score	Justification
Skills Match (30%)	0/10	No skills listed.
Experience (25%)	0/10	No experience listed.
Education (15%)	5/10	Currently pursuing a relevant B.Tech degree.
Projects (20%)	0/10	No projects listed.

Communication (10%)	2/10	Resume is incomplete and lacks necessary information.
