PROFESSIONAL PROFILE

Computer Science Engineering student specializing in Data Science with strong foundations in algorithms, data structures, and full-stack development. Skilled in Python, C++, and machine learning frameworks. Seeking a challenging internship where I can apply analytical and programming skills to build scalable, data-driven solutions.

PROJECTS

Crop Yield Prediction | Python, Pandas, Scikit-learn, XGBoost

- Developed a machine learning model to predict crop yield based on soil, weather, and historical agricultural data.
- Built visualizations to analyze key factors affecting crop yield, aiding in data-driven decision making.

AI-based Legal Document Summarizer | Python, NLP, Transformers, Flask

- Created an automated system to summarize lengthy legal documents using BERT-based text summarization.
- Developed a Flask API enabling users to upload documents and receive instant summaries, improving efficiency in legal workflows.
- Implemented end-to-end pipeline: text preprocessing, tokenization, extractive and abstractive summarization.

MindfullConnect – Mental Health Tracker | React, Node.js, MongoDB

- Built a full-stack web application for tracking mental health metrics and providing personalized insights.
 - Implemented secure user authentication, activity logging, and data visualization dashboards.
 - Designed features to promote mindfulness, habit tracking, and mental wellness monitoring.
-

EDUCATION

Bachelor of Technology In Computer Science Engineering (Specialization: Data Science)

Bennett University, Greater Noida | Expected Graduation: 2027

CGPA: 8.56/10

- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Artificial Intelligence, Database Management, Web Development
-

ADDITIONAL INFORMATION

Technical Skills: Python, C++, Java, JavaScript | Pandas, NumPy, Scikit-learn, XGBoost, NLP, Flask, React, Node.js, MongoDB | Git, Jupyter, MySQL | Data Structures And Algorithms

Certifications(Coursera): Data Structures (UC San Diego), Databases and SQL for Data Science with Python (IBM), Object-Oriented Data Structures in C++ (University of Illinois Urbana-Champaign), Introduction to Data Analytics (IBM)
