Experience

Conqr.ai

London - Remote

FullStack and Cloud Engineer

01st July, 2025 – Present

[Next.js, Typescript, Python, AWS, Azure]

- Worked on setting up RAG pipeline for reviewing and drafting a contextual legal notice.
- Shipped an automation for automatically verifying the invoice directly from mail.

Mahawanti Solution Pvt Ltd. (TAN App)

Remote

MERN Stack Intern

07th Jan, 2025 – 31st June, 2025

[Next.js, Node.js, Tailwind CSS, Typescript]

- Integrated backend APIs and database functionalities to ensure smooth operation of the TAN app.
- Contributed to a responsive and user-friendly landing page using Next.js.
- Implemented new features on Admin Dashboard using Next.js

Projects

PDFChat AI – (LIVE)

- **FastAPI Backend & OCR Integration** – Built with FastAPI for low-latency performance; integrates OCR to convert scanned PDFs into searchable text.
- **RAG Pipeline + Semantic Search** – Uses FAISS-based vector search with VoyageAI embeddings and domain-specific relevance for accurate context retrieval.
- **LLM-Powered Responses via Claude 3** – Claude 3 Haiku ensures grounded, non-hallucinated answers strictly based on the PDF content for reliable AI interaction.

Mrsam – (LIVE)

- **Accessible Website Builder** – Drag-and-drop website blocks to your playground and just launch with a single button just from your mobile, localised for arabic audience.
- **Wild Card Subdomain Feature** – User can host their website on our subdomain (example.mrsam.io), feature backed up by AWS, nginx and certbot.

Education

BENNETT UNIVERSITY

Greater Noida, Uttar Pradesh

BTech. Computer Science Engineering. SGPA : 9.16

May, 2027

Skills & Interests
