

EDUCATION

- **Bennett University, Times Group** Gr. Noida, India
B.Tech in Computer Science - CGPA: 8.6/10 2023 - present
- **B.S.F Senior Secondary School** Shillong, India
Class XII - Percentage: 79.6% 2019 - 2023
Class X - Percentage: 80.3%

Academic Projects

- **Stock Sentiment Analyzer + Price Forecasting Dashboard**
 - Engineered a **Fintech analytics platform** using Next.js and FastAPI to monitor stock trends and analyze market sentiment from 10,000+ financial tweets and Reddit posts.
 - Applied **NLP models (VADER,BERT)** to extract sentiment signals correlated with stock price volatility.
 - Integrated **LSTM neural networks** to predict next day price movement , achieving 81% accuracy on historical test data.
 - **Technology Stack** Python, FastAPI,LSTM, BERT, VADER, Next.js,JavaScript
- **Algorithm Visualizer**
 - Developed an interactive Algorithm Visualizer using React & Next.js, enabling users to visualize and understand sorting algorithms like Bubble, Selection, Merge and Insertion.
 - Implemented adjustable array size and animation speed controls , enhancing the learning experience for students and developers.
 - **Technology Stack** React, Next.js, Javascript.

TECHNICAL SKILLS

- **Programming Languages: Working Knowledge** (C++, Java, Python, Javascript, Solana)
- **DSA & Problem Solving** : Proficient in core data structures and algorithmic techniques including recursion, greedy, dynamic programming, and graph traversal
- **Frameworks (Frontend & Backend)**: Node.js, Tailwind CSS, Express.js , Django
- **AI in Finance** : Understanding of anomaly detection, risk scoring, transaction pattern analysis, and intelligent automation solutions for FinTech applications
- **Cloud Infrastructure & DevOps**: AWS (Lambda, DynamoDB, EC2), CI/CD Pipelines, Docker Containerization, Git Workflows
- **Core CS Fundamentals**: Data Structures & Algorithms, DBMS, Operating Systems, OOP

CERTIFICATIONS

- **Algorithmic Toolbox** (University of California San Diego) <https://shorturl.at/6OFjH>
- **Data Structures** (University of California San Diego) <https://shorturl.at/Pn0zL>
- **Databases and SQL for Data Science with Python** (IBM) <https://shorturl.at/6AWB1>
- **Decentralized Finance (DeFi) Infrastructure** (Duke University) <https://shorturl.at/o0oDU>

RESPONSIBILITIES & HOBBIES

- Batch Placement Coordinator Nov 2025- present
- Exploring AI technologies and LLMs
- Competitive Programming
- Personal finance research
