EDUCATION

- Bennett University** Aug 2023 - June 2027
Bachelor of Technology in Computer Science Engineering; CGPA: 8.49 Noida, India
Courses: Operating Systems, Data Structures, Analysis of Algorithms, Artificial Intelligence, Machine Learning, Databases

ACHIEVEMENTS

- Innovate 2.0 : Hack to Build IIIT, Noida** National-level winner among 200+ teams 2024
- GDSC Solution Challenge** Selected for the India Regional Bootcamp-Delhi NCR 2024
- TechArena 2025 Project Showcase** Secured 3rd position 2025

EXPERIENCE

- IQAC** Intern
Internal Quality Assurance Cell, Bennett University
 - Developed 4 interactive Power BI dashboards to track academic quality metrics, reducing data analysis time for the administration by 20 percent.
 - Contributed to data audit frameworks used in internal evaluations presented to the University's top administration.
- Imarticus Learning** Intern
Data Analyst
 - Led a team of 5 to develop interactive dashboards that delivered key business insights.
 - Analyzed business datasets using SQL, Python, and Power BI to extract actionable insights
 - Applied feature engineering techniques to optimize model accuracy
 - Visualized insights using Matplotlib and Seaborn for weekly stakeholder reports

PROJECTS

- Sahaasini** March '24
Sahaasini a women's safety app
 - The goal of the Sahaasini project is to provide a comprehensive safety toolkit for women, leveraging modern technology such as AI and real-time communication. .
 - Winner at Innovate 2.0 Hackathon, Jaypee Institute of Information Technology, Noida.
- Customer Segmentation** November ' 24
Customer segmentation using K-means Clustering
 - Segmented 1000+ investment banking clients using K-Means clustering on key financial and demographic factors.
 - Performed RFM (Recency, Frequency, Monetary) analysis to identify high-value and loyal customer segments.
 - Used Python libraries including Pandas, NumPy, and Scikit-learn for preprocessing and clustering.
- Social-ish** '25
A social platform for introverts to build meaningful connections
 - Built a web app that helps introverts connect offline at events through interest-based matching, real-time chat, and supportive tools like calming music, games, and an AI chatbot.
 - full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js)

SKILLS

- Programming:** C++, JavaScript, Python
- Tools & OS:** MS Power BI, Figma, Tableau, GitHub, VS Code, Google Colab, MS Excel
- Web Skills:** React.js, Node.js, Express.js, HTML5, CSS3
- Databases:** MySQL, MongoDB, Firebase (Firestore)
- Soft Skills:** Leadership, Problem-Solving, Teamwork, Communication, Organization and Adaptability

CERTIFICATIONS

- Data Structures and Algorithms in C/C++ Abdul Bari (400+ Leetcode)
- Text Mining and Analytics - University of Illinois
