Relevant Coursework: Data Structures & Algorithms (200+ questions), OOP, DBMS, OS, Software Engineering

Areas of Interest: Full Stack Web Development, Workflow Automation, Cloud Services

Soft Skills: Problem Solving, Self-learning, Debugging, Team Collaboration

PERSONAL PROJECTS

•StreetBites

A **MERN** app that allows local food vendors to list themselves for free

- Integrated **Gemini API** with **geolocation** services to deliver **AI-powered analytics** and personalized nearby stall recommendations based on user location.
- Technology Used : MongoDB, Express.js, React, and Node.js, S3(photo uploading), Redux, REST API

•Epidora

Skincare web-app for farmers and professionals, recommending routines based on skin type, occupation, and environment.

- Integrated **Gemini API** and **location-based UV index** for personalized recommendations.

•HR Mail Automation

An automated cold-emailing pipeline using **n8n** and Google Sheets for daily outreach to HRs

- Built a workflow that sends personalized emails daily at 8 AM to HR contacts listed in Google Sheets and sends confirmation of mailing on personal telegram, reduced duplicacy by using isProcessed flag

•ChatZ

A realtime chat application using **MERN**

- Implemented **WebSocket** based messaging to enable seamless one-to-one conversation.
- Technology Used : Socket.io, MongoDB, Express.js, React, Node.js, Cloudinary(resume, photo uploading)

•JobPortal

A full-stack job portal enabling recruiters to post jobs and applicants to apply and track application status.

- Designed and developed a role-based authentication system with **JWT** for secure login and dashboard access for recruiters and candidates.
- Technology Used : MongoDB, Express.js, React, and Node.js, Cloudinary(resume, photo uploading), Redux

EXPERIENCE

•Maya Tours And Travels

June 2025 - July 2025

Website Development

Online

- Created a full-stack MERN tour and travel website with integrated automation workflows to reduce manual effort in enquiries management.
- Redesigned UI for better user experience and accessibility; implemented basic SEO practices to enhance organic visibility and traffic.
