Profile Summary

A second-year B.Tech student at Bennett University specializing in Computer Science with a focus on Artificial Intelligence and Machine Learning. Experienced Web Development Intern with a solid foundation in HTML, CSS, JavaScript, and Python. Developed real-world projects like a Trash Classifier and Tic-Tac-Toe Game. Adept at transforming client requirements into responsive web solutions. Passionate about leveraging technology to solve real-world problems and continuously improving through hands-on learning.

Education

1. Bachelor of Technology (B.Tech) – Computer Science & Engineering (2023-2027)
 - Specialization in AI & ML
 - CGPA = 8.57
 - Relevant coursework: Data Structures, Machine Learning, DBMS, OS, CN
2. Senior Secondary (12th Standard) (2021-2022)
 - CBSE Board
 - Kendriya Vidyalaya, Raebareli
 - Percentage = 83%
3. Secondary (10th Standard) (2019-2020)
 - CBSE Board
 - Kendriya Vidyalaya, Raebareli
 - Percentage = 86%

Technical Skills

Languages: Python, C++, JavaScript

DataBase : SQL, MongoDB

Web Technologies: HTML, CSS, Bootstrap, Tailwind , React.js, Git, GitHub

Machine Learning : TensorFlow, Streamlit

CS Fundamentals: Data Structures, Algorithms, OOPs

Projects

1. Trash Classifier – TensorFlow + Streamlit
 - Built a CNN-based image classifier that categorizes waste into six distinct types.
 - Achieved high accuracy using data augmentation and model tuning.
 - Deployed the model using Streamlit for real-time user input and prediction.
 - GitHub Link : <https://github.com/SHIVANSHIDWIVEDI/Trash-Classifier-in-Python-Using-Tensorflow>
2. Tic-Tac-Toe Game – HTML/CSS/JavaScript
 - Developed an interactive browser-based game with a user-friendly interface.
 - Features include restart functionality and rule display.
 - Enhanced UI/UX using CSS animations and custom styling.

Experience

Web Developer Intern – Aadi Foundations | Remote

- Duration = (Feb 2025 – Feb 2025)
- Developed responsive web components using HTML, CSS and JavaScript.
- Explored and implemented new tech tools to optimize development workflows.
- Collaborated with cross-functional team to enhance UI/UX and website performance.
- Strengthened understanding of version control using Git and GitHub.
