Projects

Diaflow: Multi-AI Agents draw your diagrams and workflows |

LangGraph, LangChain, FastAPI, Groq, ReactJS, Neo4j, Appwrite  Github

2025

- Built a web application where **multi-AI agents automatically generate diagrams and workflows** from user instructions, eliminating manual drag-and-drop effort.
- Built a graph RAG system for few-shot prompting using **Neo4j** with LangGraph to ensure structured relationships and correctness.
- Enabled professor to produce complex architecture diagrams quickly, **reducing design time by over 60%**.

VitalSync AI: Patient history retrieval system and medical timeline generation |

ReactJS, FastAPI, LangChain, Tesseract OCR, Appwrite, Qdrant, Twilio  Github

2025

- Developed a system that retrieves patient history using an **OTP secured card** and **auto-generates a medical timeline**, enabling doctors to review records within seconds.
- Selected for industry showcase and ranked **Top 10** out of **600+ AIML** projects for innovation in healthcare workflow automation.

Experience

Artificial Intelligence Society, Bennett University

Sep 2024 – 2025

Generative AI Co-Head, Tech Team

Greater Noida, India

- Spearheading the Generative AI division by **organizing technical workshops, events, and collaboration platforms** to uplift student AI capabilities.
- Improved event automation workflows and contributed to development of the official society website and registration systems.

Smart India Hackathon

2024

Full Stack Developer

Remote

- Achieved a **Top 5%** finish (ranked **10th among 200+ teams**) during internal round by developing a full-stack scholarship platform that streamlined candidate registration and document verification using **secure hashing (SHA-256)**.
- Improved application processing time by **50%** through optimized architecture and automated document validation.

Education

Bennett University : CGPA - 9.5

August 2023 – Present

Bachelor of Technology in Computer Science

Greater Noida, UP

Relevant Coursework: Data Structures, Algorithms Analysis, Database Management Systems, Artificial Intelligence, Data Analysis, Data Mining and Predictive Modeling

Skills

Languages: Python, Java, C++, JavaScript, TypeScript

Web/Backend: React, Node.js, Express, FastAPI, Flask, Socket.io

AI/ML: TensorFlow, LangChain, LangGraph, LLMs

Databases: MongoDB, MySQL, Firebase, Appwrite, Vector DBs (Qdrant, Pinecone, FAISS)

Tools/DevOps: Git, Postman, LangSmith, VS Code, Jupyter, Colab, Vercel, Render

Soft Skills: Leadership, Fast-Learning, Team Collaboration

Certifications

- **Data Structures** — University of California, San Diego - Rady School of Management (Issued Nov 2024)
- **Databases and SQL for Data Science with Python** — IBM (Issued Nov 2024)
