Education

Bachelor of Technology in CS
Bennett University

2023 – 2027
Greater Noida, India

Experience

App Developer Intern
PredictHer

April 2024 – November 2024
Greater, India

- Built a Flutter application (MVP) integrating ML models for women’s health tracking.
- Improved app performance, reducing load time by **30%** and enhancing UI responsiveness across Android/iOS platforms.

IQA Intern
Internal Quality Assurance Cell (IQAC),Bennett University (Times of India Group)

August 2023 – November 2023
Greater Noida, India

- Analyzed 50+ academic/admin indicators to assess quality.
- Reduced evaluation time by 20% through process automation.
- Assisted in preparing the AQAR report for NAAC submission.

Projects

ArcadeRL

November 2025

Building reinforcement learning package in Python with 3 game environments (Snake, Flappy Bird, Pac-Man), DQN implementation, and training infrastructure using PyTorch and Gymnasium API

Food Image Classification and Macro Estimation Model App

June 2025

Developed a deep learning model classifying 101 food categories with MobileNetV2 and Own Model, achieving ~79% accuracy and exporting to TensorFlow Lite And integrate with flutter

StartNivesh

January 2025

Developed a startup networking and investment platform using Flutter, connecting startups with investors, featuring authentication, funding management, and real-time communication,

Saahasini -Women Safety App

September 2024

Developed a women’s safety app with AI-driven CCTV monitoring, real-time location sharing, high-risk alerts, and emergency shake gestures, improving incident response time by 40%.

Awards

Smart India Hackathon (SIH) – Government of India and Indian Institute of Technology, Roorkee
“National-level winner in SIH software edition”

Innovate 2.0: Hack to Build – Unstop and Jaypee Institute of Information Technology
“National-level winner in Innovate 2.0”

GDSC Solution Challenge
Google and GDSC
“Selected for the GDSC Solution Challenge India Regional Bootcamp – Delhi NCR”

TechArena 2025 Project Showcase – Bennett University
Secured **3rd position**, among a total of 100+ teams.

Skills

Programming: Python, C++, Dart, SQL, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)

Frontend Development: Flutter, UI/UX Design

Backend Development: FastAPI, REST APIs, WebSockets, Microservices Architecture

Databases: MySQL, NoSQL (MongoDB, Firestore), Data Modeling, Data Warehousing

Cloud & DevOps: GitHub, Google Colab, Docker (for ML model deployment), Model Hosting on GCP/AWS

Tools & Productivity: Figma, Visual Studio Code, Jupyter Notebook, Power BI, MS Excel, Windows, macOS

Data Science & AI/ML:

- **Core Libraries & Tools:** Pandas, NumPy, Matplotlib, Seaborn
- **Machine Learning:** Scikit-learn, TensorFlow, Keras, PyTorch
- **Data Handling:** Data Preprocessing, Feature Engineering, Exploratory Data Analysis (EDA), Data Visualization, Statistics
- **Model Development:** Model Training & Evaluation, Hyperparameter Tuning, Cross-Validation, Predictive Analytics
- **Deployment:** Model Deployment (Flask, FastAPI, Docker)
- **Specialized Areas:** Natural Language Processing, Computer Vision , Reinforcement Learning, Time Series Forecasting

Soft Skills: Leadership, Problem-solving, Communication, Organization, Adaptability , Member of Placement Committee Bennett University

Certificates

Statistics for Data Science with Python:  IBM | **Data Structures:**  University of California San Diego | **Python Data Structures**  |

Text Mining and Analytics:  University of Illinois Urbana-Champaign | **Operating Systems and You:** Google  |

Peer-to-Peer Protocols and Local Area Networks:  University of Colorado
