PROFILE

Computer Science student with strong DSA skills and hands-on experience in Data Science, Web and Software Development. Proven leader and problem-solver with a track record of building impactful projects and driving team success through innovation and collaboration.

EDUCATION

Bennett University

Greater Noida, India

Bachelor of Technology in Computer Science Engineering

2023 – 2027

- Among the top 10% of the batch
- Carbon(CO₂) emission prediction model created which helps in environment conservation and contributes largely towards a sustainable future.

SKILLS

Technical: Python, Data Analytics, Machine Learning, Data Structures and Algorithms (C++), HTML, CSS, JS, React.js, Node.js, Express.js, MySQL, MongoDB, MS Excel

Tools: VS Code, Jupyter Notebook, GitHub, MySQL Workbench, Postman

CERTIFICATIONS

- Smart India Hackathon(SIH) university level finalist Certificate of Appreciation : September' 23
- Universiti Teknologi PETRONAS Immersion Programme Certificate of Appreciation : August' 24
- NPTEL Software Engineering Exam Certification of Clearance : July' 24
- Forage Deloitte Data Analytics Job Simulation Certificate of Completion : June' 25

EXPERIENCE

Imarticus Learning

Noida, India

Data Analyst Intern

June'25 – July'25

- Developed interactive data analytics projects with models optimised till such a level reaching at least 90% accuracies.
- Top 5% interns in my internship period in terms of work, achieving project goals and overall promptness.
- Show qualities like problem solving, collaboration, planning, productivity and communication.

Bluestock Fintech

Mumbai, India

SDE Intern

July'25 – Aug'25

- Designed, constructed, and maintained core software modules for enterprise dashboards, utilizing robust programming best practices to ensure scalability and reliability.
- Collaborated within agile teams to deliver new dashboard features, conducted code reviews, and integrated third-party APIs for enhanced functionality.

PROJECTS

Airy

- Built a Carbon(CO₂) Emissions Forecasting engine using SARIMA/LSTM ensembles with dynamic weighting for 190+ countries.
- Deployed an automated pipeline & interactive dashboard to visualize & forecast long-term emission trends (1990–2125).

Legal Track

- Programmed ML/NLP-driven MERN web app for automated legal text analysis and FIR filing.
- Integrated blockchain for secure data handling; trained models on real IPC datasets for high accuracy.

ACHIEVEMENTS

- I and my team were the finalists in Smart India Hackathon, 2023.
- Certificate of Participation – Familiarization Exchange Programme, Universiti Teknologi PETRONAS, Malaysia, 2024.
- Certificate of Appreciation – Generative AI Internship, Google-NASSCOM, 2025.
