

AYUSH RAI

ayushrai252005@gmail.com | +91 - 6307862599 | [ayush-rai-developer](#)

Profile Summary

Ambitious and disciplined Computer Science undergraduate with strong foundations in Data Structures and Algorithms (Java) and hands-on experience in full-stack web development using the MERN stack. Demonstrated ability to design scalable backend systems, build RESTful APIs, and develop end-to-end applications, with a keen interest in backend engineering, cloud-based systems, and problem solving.

Education

Degree/ Examination	Year of Graduation	Name of Institution	Performance (% /CGPA)
B.TECH -CSE	2027(Pursuing)	Bennett University	8.0 CGPA
XII	2023	Lucknow Public School & College	86%
X	2021	Lucknow Public School & College	84%

Technical Experience / Practical Exposure (Academic & Self-Driven)

- Designed and developed **full-stack web applications** using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** with RESTful APIs and secure authentication
- Built scalable **backend services** and integrated them with responsive frontend components for end-to-end functionality
- Implemented application workflows including **user management, data handling, and API communication**
- Ensured application reliability and environment consistency using **Docker** during development and testing
- Gained hands-on experience deploying and running full-stack applications on **AWS and Azure** core services

PROJECTS

MARKET – E-Commerce Backend (MERN Stack) 2025

- Developed backend using **Node.js, Express.js, MongoDB** with REST APIs
- Implemented **JWT authentication**, user roles, and product/order management

AI Chat Application (ChatGPT-Style Tool) 2024

- Built an AI-powered chat application using **MERN stack** with vector search integration
- Integrated **Pinecone** for semantic search and context retrieval to support intelligent responses
- Designed backend APIs for prompt handling, response generation, and scalable request processing

Mood Detection System 2024

- Built a facial expression-based mood detection system using **Python**
- Analyzed real-time webcam input for emotion classification

Mini Projects

- Small projects using **HTML, CSS, JavaScript, MySQL, MongoDB**

2023

KEY SKILLS

- **Languages:** C++ | Python | Java | SQL | JavaScript | Scripting
- **Frameworks:** Express.js | Node.js | React.js | Mongoose
- **Technical Skills:** MERN stack | REST APIs | MongoDB | MySQL | AWS | Azure | Terraform | Jenkins
Azure DevOps | Docker | Git & Github | Nginx
- **Other Skills:** Drone Building & UAV Basics | Robotics using Raspberry Pi | Linux (Ubuntu) | Shell Scripting
