Education

B. Tech CSE , <i>Bennett University</i>	09/2023 – Present Greater Noida, India
Senior Secondary , <i>St. Anthony's Senior Secondary School</i>	2020 – 2022
Secondary , <i>St. Anthony's Senior Secondary School</i>	2019 – 2020

Skills

Technical Skills

Programming Languages: C++, Python
Frontend: HTML, CSS, JavaScript, Next.js, React.js
Backend: Node.js, Express.js,
AI/ML: NumPy, Pandas, Scikit-Learn, TensorFlow /
PyTorch, OpenCV, Matplotlib, Jupyter Notebook
Databases: MongoDB, MySQL, Supabase,
PostgreSQL

Soft Skills

Leadership, Time Management, Problem Solving,
Communication

Technical Experience

Technical Head | Robotics Process Automation Club, BU

- Spearheaded the development and deployment of innovative web solutions, mentoring team members and enhancing technical capabilities within the club.
- Led projects integrating robotic process automation (RPA) with web development, focusing on optimizing workflows and streamlining processes for real-world applications.

Projects

Kidney Disease Classification using Deep Learning | Python, TensorFlow, MLflow, DVC, Flask, AWS 📄

- Built a CNN-based kidney disease classifier with a complete ML pipeline (ingestion–training–evaluation–prediction) using MLflow and DVC.
- Deployed a Flask real-time prediction app using Docker & AWS CI/CD for scalable and reproducible workflows.

Journal Application 📄

- **Responsive Journal Application:** Built with Next.js, featuring server-side rendering, secure authentication, and optimized CRUD operations.
- **Enhanced UX:** Designed an intuitive, mobile-first interface with dynamic routing and fast load times.

E-commerce Application 📄

- Built a full-featured MERN eCommerce platform with user authentication, product management, shopping cart, orders, and payment integration, using Redux for state management.
- Implemented responsive UI for seamless user experience across devices.

Certificates

- Full Stack App Using React & Express 📄
- Backend Development course 📄
- Deep Learning for Developers 📄
