SUMMARY

Data Analyst Intern and aspiring Software Developer with solid knowledge of web technologies, databases, and version control. Experienced in Python, SQL, JavaScript, and modern web frameworks, with strong problem-solving abilities, and a passion for learning and contributing to real-world software projects.

SKILLS

- **Languages:** JavaScript, PHP (basic), Java, Python, SQL
- Web technologies: HTML, CSS, React.js, Next.js
- **Databases:** MySQL, SQL
- **Tools:** Git, GitHub, Linux
- Core CS: Data Structures, Algorithms, Operating Systems, Networking
- Development practices: version control, basic automation testing
- Soft skills: problem-solving, quick learner, project planning

EXPERIENCE

DATA ANALYST INTERN, 01/2026 - Current

KD EVENTS SOLUTION

- Collected data from event feedback surveys for analysis.
- Utilized Excel to organize and analyze event data efficiently.
- Conducted market research to identify trends in event planning.
- Created SQL queries to extract relevant information from relational databases for various projects.
- Analyzed customer feedback surveys to understand user experience with products and services.
- Experience working across **data analysis and web development** domains.
- Developed and maintained web applications using **JavaScript, PHP, HTML, CSS, and MySQL**.

EDUCATION AND TRAINING

BENNETT UNIVERSITY, GREATER NOIDA, DELHI, Expected in 04/2027

BTECH, CSE

- Capstone Projects: **Chronic-Kidney-Disease-Dataset**; **Gather – Modern Web Platform**

Tech Stack: Next.js, TypeScript, React, Tailwind CSS

- 8.02 GPA
- Completed 10+ online certifications in Data Science, Machine Learning, Deep Learning, Databases, Networking, and Software Engineering from Coursera, IBM,

Google, and top universities.

- Scholarship Recipient

- **Senior Secondary (Class XII)**

Passing Year: **2022** | Percentage: **91.4%**

- **Secondary (Class X)**

Passing Year: **2020** | Percentage: **85.6%**
