CAREER OBJECTIVE

Aspiring Software Engineer with strong foundations in Data Structures, Algorithms, and scalable system design. Driven by problem-solving and innovation, with experience building full-stack applications and collaborating in team environments. Seeking an opportunity to contribute to impactful software while continuously learning and adapting to new technologies.

WORK EXPERIENCE

Software Development Intern – Bluestock Fintech

Jun 2025 - Jul 2025

- Developed a full-stack web platform using the **MERN** stack with responsive UI components.
- Integrated secure and scalable **REST APIs** for data flow and real-time interaction.
- Collaborated in an **Agile environment** using Git for version control, feature branching, and code reviews.
- Contributed to deployment, debugging, and performance improvements across frontend and backend.

PROJECTS

Sahyaatra – Intelligent Trip Planning & Co-Travel Network

- Developed an AI-powered travel planning platform for SIH 2025 with multilingual and safety-enabled co-travel features.
- Implemented smart trip generation, real-time monitoring, and digital checkpoint verification for secure travel.
- Designed scalable architecture enabling low-latency search, alerts, and emergency support.

Campus LMS – Unified Learning Management System

- Built a role-based LMS platform using **PERN + Microservices**, integrated with CAMU for course & assignment workflows.
- Implemented secure authentication, modular service separation, and optimized resource access flows.
- Enabled scalable course management with database abstraction and faster content delivery.

CABU – University Ride-Sharing Platform

- Developed MERN-based campus ride-sharing system to create, join and manage rides securely.
- Integrated **SendGrid** for automated email bookings, confirmations, and ride updates.
- Implemented real-time availability with faster DB queries and improved communication reliability.

EDUCATION

2023 – present	B.Tech in Computer Science & Engineering at Bennett University	(CGPA: 9.73/10)
2023	Class XII, Balaji Junior College	(Percentage: 96.9)
2021	Class X, Nirmala High School	(Percentage: 100)

TECHNICAL SKILLS

Languages	C++, Java, Python, C
Core Computer Science	Data Structures & Algorithms, OOPS, OS, DBMS, CN
Web Development	MERN, Next.js, Node.js, Express, REST APIs
Databases	MongoDB, MySQL, PostgreSQL, Redis
Cloud & DevOps	Docker, AWS, CI/CD, Microservices Architecture
Tools	Git, GitHub, Postman, VS Code, Linux, Agile Development

CERTIFICATIONS

Data Structures and Algorithms – UC San Diego (Coursera)
Meta Front-End Developer Professional Certificate – Meta (Coursera)

ACHIEVEMENTS

- Secured **6th place** in Smart India Hackathon 2025 (Internal Round) in Travel & Tourism domain.
- Achieved **3rd position** in *Project Showcase 2.0* for innovation and technical execution.
- Included in the **Dean's List (Oct 2024 – Present)** for consistent academic excellence.

EXTRACURRICULAR ACTIVITIES

- Member of College Placement Committee, coordinating events and workshops.
- Organized and participated in tech workshops and hackathons.
- Led debate and inter-college events with 100+ participants, mentored juniors.
