

KULJOT SINGH

9315914293 | kuljotsingh354@gmail.com | [linkedin](#) | [github](#)

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript

Frameworks: React.js, Node.js, Express.js, HTML, CSS, FastAPI

AI/ML: Machine Learning, NLP, Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Hugging Face

Developer Tools: Git, Google Cloud Platform, MySQL, MongoDB, GitHub, VS Code, PyCharm

Databases: MongoDB, MySQL, SQL

EXPERIENCE

SDE Intern — Bluestock Fintech Pvt. Ltd.

Aug 2024 – Sep 2024

Tech Stack: React.js, Node.js, Express.js, REST APIs, MongoDB, JavaScript

Greater Noida, UP, India

- Developed a stock trading and analytics web application with 10+ dynamic pages using React.js for a responsive and scalable frontend.
- Implemented RESTful APIs using Node.js and Express.js to handle user authentication, stock data retrieval, and backend logic.
- Optimized frontend performance and backend response times to improve application speed and reliability.

Machine Learning Intern — Prasunet Pvt. Ltd.

Mar 2025 – Apr 2025

Tech Stack: Python, Scikit-learn, Pandas, NumPy, NLP

Greater Noida, UP, India

- Developed a machine learning-based career recommendation system using NLP and ML algorithms to suggest personalized career paths.
- Designed data preprocessing pipelines for cleaning, feature extraction, and model training.
- Worked on model evaluation and optimization to enhance prediction performance.

PROJECTS

Sepsis Prediction System | Python, Scikit-learn, Pandas, NumPy [Link]

November 2024– Present

- Built a machine learning pipeline to predict early sepsis onset in ICU patients.
- Preprocessed and analyzed 40,000+ patient records including vitals and lab results.
- Trained and evaluated classification models to support early clinical intervention.
- Delivered actionable insights aimed at improving patient survival rates.

CareerPathAI | Python, Machine Learning, NLP, Scikit-learn, Pandas[Link]

March 2025 – Present

- Developed an AI-driven career recommendation system using Machine Learning and NLP to suggest personalized career paths.
- Implemented text preprocessing, feature extraction, and similarity-based models to improve recommendation accuracy.
- Designed REST-based logic for seamless data flow between user inputs and ML predictions.
- Improved decision-making for users by providing skill-gap analysis and role recommendations.

CERTIFICATIONS

Cisco Networking Academy: Cisco Packet Tracer

Google : 30 days of google cloud

Coursera: Natural Language processing specialization, Deep Learning Ai

EDUCATION

BENNETT University

B.Tech in Computer Science Engineering

Greater Noida, UP, India

2022– Present
