EDUCATION

B.Tech

Bennett University

2023 – Pursuing

- Computer Science Engineering
- Current GPA: 8.08

Intermediate

Kulachi Hasraj Model School

2023

- CBSE
- Final Grade: 85

EXPERIENCE

Amazing Variable

Intern

Jan – Pursuing

Remote

Assisting in developing and deploying production-ready AI agents.

- Working with LLM-based systems and real-world AI workflows.

Inventia

Intern

June – July 2025 (2 months)

Greater Noida, Uttar Pradesh

Built a machine learning model to predict electricity usage patterns.

- Performed exploratory data analysis (EDA) and feature engineering (lags, trends).
- Created interactive dashboards using Apache Superset.

PROJECTS

A.I Resume Classifier

- Designed and implemented a machine learning model to classify resumes based on job roles.
- Applied NLP techniques for text preprocessing, feature extraction, and keyword analysis.
- Built using Python, Scikit-learn, Pandas, and NumPy.

A.I Assistant

- Developed a voice-based AI assistant in Python to automate tasks such as web browsing, music playback, and reminders.
- Integrated speech recognition and text-to-speech for real-time voice interaction.
- Incorporated a Large Language Model (LLM) to handle natural language queries and contextual responses.

ACHIEVEMENTS

Batch Representative:

Selected as official representative for my batch .

Competitive Programming

Solved over 150 coding questions on LeetCode, Codeforces, GFG.

Hackathon

Became one of the only 3 teams out of 600 selected from university for SIH

SKILLS

Programming Languages

Python, Java, C++, Dart

Web Development

HTML, CSS, JavaScript

Database Management

MySQL, MongoDB

Machine Learning

Scikit-learn, Pandas, NumPy, PyTorch, TensorFlow

AI / NLP

LLMs, Speech Recognition, Text-to-Speech

Tools & Platforms

Git, Linux, Docker, AWS
