Profile Summary

Energetic and passionate Computer Science student with a deep love for coding, particularly in C++. Strong foundation in software development, problem-solving, and computer science fundamentals. Eager to apply technical skills in creating efficient, scalable, and user-friendly software solutions.

Education

Degree / Examination	Year of Graduation	Institution	Performance
B.Tech, Computer Science Engineering	2027	Bennett University	8.07 CGPA
XII	2022	Boston Public School	70%
X	2020	Dr. MPS World School	83%

Projects

Mem Heav: A dementia care application that connects patients with caregivers based on daily pricing and schedules. Features include patient and caretaker login systems, medication reminders, and email alerts for caregivers about patient activities. The platform ensures better coordination and management of dementia care routines.

Stack: React.js, TypeScript, Tailwind CSS

Mystic India: Immersive cultural exploration platform showcasing India's vibrant heritage. Explore traditions, cuisines, and ancient crafts through virtual tours and storytelling. Smooth visuals and responsive design bridge cultural gaps and connect users to India's diverse soul.

Stack: React.js, TypeScript, Tailwind CSS, Framer Motion, React Router, Vite, Google Generative AI (Gemini API)

Certifications

- Object-Oriented C++: Inheritance and Encapsulation
- Operating Systems and You: Becoming a Power User
- Linux System Programming and Introduction to Buildroot
- Basic Statistics

Key Skills

HTML, CSS, JavaScript, React.js, TypeScript, Node.js, Express, MySQL, JAVA

Extra-Curricular Activities

- Participated in Smart India Hackathon 2025

Hobbies

Reading self-help books, Coding
