

Navya Jaidka

navyajaidka33@gmail.com — GitHub — Portfolio — LinkedIn — Leetcode

Summary

Software Engineering Intern with hands-on experience building and deploying production-grade full-stack applications used by real users. Strong in React, Flask, and REST APIs, with proven impact in performance optimization, testing, and Agile development. Solved 300+ DSA problems

Technical Skills

Languages: Python, JavaScript, C++, SQL

Frontend: React.js, HTML, CSS, TailwindCSS

Backend: Flask, Node.js, REST APIs

Databases: PostgreSQL, Supabase

Tools: Git, GitHub, Postman, Swagger, VS Code

Core CS: Data Structures & Algorithms, OOP, DBMS

Experience

Software Engineering Intern — UnlockDiscounts

Apr–Jul 2025

- Built and deployed production-ready e-commerce features used by real customers using React, Flask, and Tailwind-CSS.
- Improved frontend responsiveness by ~30% through UI refactoring and performance optimization.
- Integrated RESTful APIs for authentication and product workflows; documented endpoints using Swagger.
- Wrote automated tests using PyTest and debugged critical backend modules.
- Collaborated in Agile sprints and code reviews; awarded *Employee of the Month*.

Projects

CUET Mock Test Platform — React, Supabase, TailwindCSS

- Developed a full-stack online examination platform with timed tests, automated scoring, and detailed analytics.
- Implemented admin workflows for question uploads, test creation, and student performance tracking.
- Deployed and supported the platform across multiple schools and coaching centers.

AgroX: Crop Price Predictor — Python, Machine Learning

- Developed a machine learning-based crop price forecasting system using historical agricultural datasets.
- Built an interactive dashboard to visualize predicted price trends.

Problem Solving & DSA

Solved 300+ Data Structures and Algorithms problems on LeetCode with focus on optimal time and space complexity. LeetCode

Achievements

Top 10 Finalist — Microsoft Hackathon (Innovate 2025)

Gold Medal — Academic Excellence (2016–2022)

Certifications

HTML and CSS in Depth — Coursera

Dynamic Programming & Greedy Algorithms — Coursera

Object-Oriented Data Structures in C++ — Coursera

Education

Bennett University, Greater Noida

2023–Present

B.Tech in Computer Science Engineering (Expected 2027)
