EDUCATION

B.Tech in Computer Science and Engineering

Bennett University

CGPA: 8.67/10

2023 - 2027
Greater Noida, India

TECHNICAL SKILLS AND SOFT SKILLS

Languages: TypeScript, JavaScript, Solidity, Rust, Python, C++

Developer Tools: VS Code, Git and GitHub, LaTeX, Clerk, LiveKit

Databases: PostgreSQL, MongoDB, MySQL

Blockchain Platforms: Ethereum, Solana, Algorand, Bitcoin

Soft Skills: Problem Solving, Self-Learning, Team Management, Leadership

Technologies: HTML, CSS, React, Next.js, Node.js, Express.js, TailwindCSS

Frameworks: Prisma, Hardhat, Truffle, Foundry

Libraries: Web3.js, Pandas, NumPy

Coursework: Data Structures, Algorithm Design, Blockchain Engineering

PROJECTS

SwitchStream • Next.js, TypeScript, Prisma, TailwindCSS, PostgreSQL

June 2024 – September 2024

- Built a scalable streaming platform handling 1,000+ hosts and 5,000+ viewers using RTMP, WHIP, OBS, and LiveKit technologies
- Developed real-time interactive chat system supporting 500+ concurrent participants with seamless user experience
- Implemented robust backend architecture with PostgreSQL database and Prisma ORM for efficient data management

FundFlow • React, Solidity, Ethereum, Web3.js, TailwindCSS

January 2024 – Present

- Developed secure decentralized crowdfunding platform with milestone-based fund release mechanism
- Integrated cryptocurrency payment systems through MetaMask and WalletConnect for seamless transactions
- Designed intuitive campaign creation UI with smart contract integration for transparent fund management
- Implemented blockchain-based voting system for milestone approvals and fund disbursement

Nexuss • Next.js, Node.js, Clerk

August 2024 – Present

- Collaborated with a team of 5 to build an AI-powered alumni portal for connecting mentorship and networking
- Implemented AI mentor matching algorithm connecting students with relevant alumni based on career interests
- Developed integrated chat and video communication system for seamless alumni-student interactions
- Built live events management system and "Almap" feature with Clerk authentication for secure access
- Achieved Top 50 placement in Smart India Hackathon 2024 demonstrating innovation and technical excellence

ACHIEVEMENTS

- National-Level Kho-Kho Player & Captain** - Represented state team in national championships (2017, 2018)
- LeetCode Problem Solver** - Solved 100+ data structures and algorithm problems, demonstrating strong problem-solving skills (2024)
- Smart India Hackathon 2024 Finalist** - Top 50 team placement among thousands of participants for project "Nexuss"
- Event Leadership** - Successfully led team of 50+ participants at Apogee 2024, BITS Pilani, securing multiple cash prizes

EXPERIENCE AND LEADERSHIP

President

August 2024 – Present

Alan Turing Club, Bennett University

- Leading the club's initiatives and overseeing event planning and execution
- Organized tech events and hosted talk shows featuring expert guests from the industry

Campus Ambassador

August 2024 – Present

Algorand Foundation

- Conducting blockchain education sessions focused on the Algorand ecosystem for university students
- Organizing workshops and seminars to promote blockchain technology awareness on campus

Lead Organizer

March 2025

Scale Up with Uber Program

- Managed logistics, outreach, and coordination with Uber representatives for university program
- Led internal publicity campaigns and content creation to maximize program participation
