PROFILE

Passionate Computer Science Engineering student with a focus on Full-Stack Development and strong problem-solving abilities through Data Structures and Algorithms in C++. Skilled in modern web technologies like React, Node.js, and MongoDB, and curious about emerging AI/ML technologies. Aspiring to secure an internship to learn, innovate, and contribute to high-quality software solutions.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering, 2023 – 2027
BENNETT UNIVERSITY GREATER NOIDA
CGPA: 8.58 / 10

PROFESSIONAL EXPERIENCE

GIG INTERN, Uber 06/2025 – 07/2025
Remote, India

- Completed paid gig-based tasks assigned by Uber with efficiency and accuracy.
- Gained exposure to real-world corporate workflows and remote task management.
- Strengthened problem-solving and time-management skills through work.

SKILLS

Full-Stack Web Development

- React.js, Node.js, Express.js, MongoDB
- Authentication & Authorization (JWT)
- REST API Development
- Frontend & Backend Integration

Artificial Intelligence & Machine Learning (AIML)

- Experienced with libraries such as NumPy, Pandas, Matplotlib, and Scikit-learn for data manipulation and model building.
- Knowledge of supervised & unsupervised learning.

PROJECTS

BlueFusion, Integrated Data Management System for Ocean, Biodiversity, and Fisheries 08/2025 – 10/2025

- Used AI/ML models to automatically identify and categorize marine species from uploaded images.
- Developed a full-stack web solution using React.js, Node.js, and MongoDB.
- Applied data science techniques for structured storage, visualization.

Adventure Awaits, Travel Planning and Booking Web Application 07/2024 – 11/2024

- Integrated features like hotel booking, restaurant recommendations, attraction tickets, and budget planning within a single platform.
- Built using React.js, Node.js, Express, and MongoDB following the MVC architecture for scalability and maintainability.

CERTIFICATES

Frontend Development-META

Learned responsive web design, UI development, and front-end deployment techniques.

Microsoft Certified: Azure

Algorithmic Toolbox Learner Associate

Demonstrated skills in developing, deploying, and maintaining cloud applications on Azure.

Algorithmic Toolbox

Strong understanding of algorithmic thinking and problem decomposition and analyzing time and space complexity

Interests

- Engaging in swimming and badminton to build mental clarity, and teamwork skills.
- Building full-stack web applications
- Blending technology and creativity through coding and music
