EDUCATION

Bennett University, Greater Noida

Btech - **CGPA - 8.34**

2023 - 2027

Greater Noida, Uttar Pradesh

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Data Science
- Database Management System (DBMS)
- Object-Oriented Programming
- Web Development
- Django & Rest APIs
- Machine Learning

PROJECTS

MediSphere | Django, CSS, JS, MongoDB, REST APIs

February 2025- May 2025

- Developed a Django-based healthcare platform enabling digital management of medical records, appointment booking, and prescription access, with patient data securely stored in MongoDB.
- Integrated Razorpay for secure online payments and implemented hospital price lists and doctor fee transparency to enhance user trust and experience.

Niramay | Django, CSS, Js, MongoDB, Rest API

November 2024 - January 2025

- Built an AI-powered symptom checker using Django, allowing users to input symptoms and receive possible disease predictions along with personalized Ayurvedic remedies and health suggestions .
- Focused on holistic healthcare by integrating natural treatment recommendations, with secure user authentication and health history tracking for a personalized experience.

IPL Dashboard | Tableau

August 2023 - November 2023

- Designed an interactive Tableau dashboard showcasing comprehensive IPL player statistics, including batting, bowling, and fielding records across multiple seasons Enabled dynamic filtering by team, season, and player, providing clear visual insights into performance trends and comparisons for fans and analysts.

Experience

Deloitte & Tata Group (Forage)

Virtual Simulations – Data Analytics & Visualization (Online)

- Completed self-paced simulations focused on real-world data analysis, dashboard building, and data-driven decision making.
- Applied concepts of **data modeling**, **visualization**, and **business storytelling** using tools like **Tableau**.
- Gained hands-on exposure to analytics processes used in top consulting firms.

Team Lead – Backend & Hackathons

- Led the backend development of projects like **MediSphere**,Managed a team of developers to deliver scalable and secure healthcare solutions under tight deadlines.
- Actively participated and **led the team in DSA-based hackathons**, handling coding,final presentations and ranked among top 5% of teams.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, SQL

Developer Tools: VS Code, Android Studio, DataGrip, Goland, IntelliJ Idea Ultimate

Technologies/Frameworks: Linux, GitHub,NodeJS, Git, Mongo

EXTRACURRICULAR

Cricket & Volleyball

- Played and enjoyed cricket and volleyball in various tournaments and friendly matches.

Event Volunteer

- Participated in organizing cultural and technical fests; enjoyed being part of event setups.

CERTIFICATIONS

- Java
- Python for Data Science - Coursera
- C++ & SQL [↗](#)
- Data Structure - Coursera
- SQL
- MongoDB Basics
