Greater Noida, Uttar Pradesh (201310)

SKILLS

- ❖ **Programming:** C++, Java, Python (data structures and algorithms, OOP)
- ❖ **Development:** Full-stack application development using React, HTML, CSS, JavaScript, REST APIs, MySQL
- ❖ **AI/ML:** Machine learning fundamentals, model development & evaluation, Scikit-learn, NLP
- ❖ **Blockchain/Web3:** Smart contract development (Solidity), Ethereum, Web3 application (dApp) development
- ❖ **Cloud:** AWS fundamentals, application deployment & storage
- ❖ **Tools:** Git, GitHub, Jira, VS Code

EDUCATION

Bennett University, Greater Noida, UP
B.Tech Computer Science Engineering | 2023–2027 | **CGPA: 8.77(Aggregate)**

Vatsalya Public School, UP (CBSE)
Class XII: **90%** (21-22) | Class X: **95.8%**(19-20)

EXPERIENCE

Remote QA Contributor | Outlier AI (Nov 2024 – Apr 2025)

- Reviewed and validated AI-generated STEM content to ensure accuracy and clarity

Management Core | Artificial Intelligence Society, Bennett University (2023-2024)

- Organized workshops and speaker sessions to promote AI awareness on campus

Campus Ambassador | IIT Bombay, E-Cell

- Supported startup-focused initiatives and engaged with the student entrepreneurship ecosystem

LANGUAGES

Hindi (Native) , English(Proficient)

PROJECTS

Transparent Rural Portal - FullStack Web3 Application | [Github](#)

Tech: HTML, JavaScript, Node.js, SQL, Maps, Prisma, Solidity, Ethereum

- Multilingual, map-based civic reporting platform with audio-video demo and on-chain record anchoring

HerbTrace - FullStack Supply Chain Application | [Github](#)

Tech: HTML, CSS, JavaScript, Node.js, Solidity, Ethereum, IPFS

- Role-based supply chain provenance system with event tracking, geo-mapping, and QR-based consumer verification

Fund Me - Smart Contract Development & Testing (Foundry) | [Github](#)

Tech: Solidity, Foundry, Chainlink Oracles, Ethereum, HTML, JavaScript

- Developed and tested a decentralized funding smart contract using mocks, scripts, and local EVM simulation

HACKATHONS & ACHIEVEMENTS

Finalist, CodeSlayer 2K25 - NIT Delhi

- Selected for the final round among 10,000+ registrations; ranked Top 33 / 2,400+ teams in pre final round

Selected for Next Stage, Smart India Hackathon (SIH) 2025

- Ranked 35 / 640 teams; led team through problem selection, system design, and prototype development
