LeetCode

EDUCATION

Bennett University

B.tech - 8.4

07 2022 – 05 2026

Greater Noida, India

The English Junior College

12th - Higher Secondary - 96 %

2019 – 2021

Ner, Yavatmal, Maharashtra

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Network Security
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Web Development
- Android Development
- Excel

PROJECTS

URBAN ASSIST | HTML, CSS, JavaScript, Express, NodeJS, MongoDB

- Developed a **full-stack web platform** integrating **home-cooked meal deliveries** and **gardening services**, reaching **500+ active users**.
- Connected users with **100+ local chefs** for **personalized meal plans**, increasing accessibility to affordable home-cooked meals.
- Implemented **professional gardening services**, enabling **20% faster service bookings** through an optimized scheduling algorithm.
- Designed **flexible subscription models**, boosting user retention by **35%**.
- Integrated a **secure payment gateway** using **Stripe API**, ensuring **100% transaction security**.

NeuraRec | XGBoost, Scikit-Learn, Surprise, Pandas, NumPy

- Built an AI-powered recommendation system using **SVD**, **KNNBaseline**, and **SlopeOne**, achieving **85% accuracy** in personalized recommendations.
- Developed a hybrid recommendation engine leveraging **XGBoost**, **Scikit-Learn**, and **Surprise** to improve prediction performance.
- Preprocessed and analyzed **500,000+ data points** using **Pandas**, **NumPy**, and **Seaborn**, improving data quality by **30%**.
- Optimized model hyperparameters using **GridSearchCV**, reducing **RMSE** by **12%**.
- Integrated **FuzzyWuzzy** for better data matching, enhancing recommendation relevance by **25%**.

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, SQL

Developer Tools: VS Code, IntelliJ, Colab, Jupyter

Technologies/Frameworks: GitHub, NodeJS, ExpressJS, Git, MongoDB

EXTRACURRICULAR

NIRVI (OPERATION CO-HEAD)

2024-2025

Bennett University

- Ensure quality standards, compliance, and risk mitigation.
- Coordinate between departments for seamless project execution.

CERTIFICATIONS

- Google's Prepare Data for Exploration
- IBM's Malware Analysis and Introduction to Assembly Language
- Introduction to Artificial Intelligence (AI)
