About

Computer Science undergraduate with hands-on experience in software development and AI-enabled systems. Skilled in building scalable, production-ready applications using modern frameworks, cloud platforms, and applied machine learning, with a strong focus on intelligent automation and real-world problem solving.

Technical Skills

Languages: C++, Python, TypeScript, JavaScript
Frontend: Next.js, React.js, TailwindCSS, ShadCN, MaterialUI, Django
Backend: Node.js, Express.js, Supabase, Prisma ORM, Drizzle ORM
Databases: MongoDB, PostgreSQL, Firebase
Tools & Cloud: AWS, Docker, GitHub, VS Code, Postman, Clerk, Appwrite, Inngest

Projects

DeployFlow | *Node.js, Express, React, Docker, Railway, GitHub Actions, Inngest, Groq API* | GitHub **June 2025**

- Built an **AI-powered DevOps automation platform** that converts natural-language inputs into end-to-end deployment plans.
- Implemented a **multi-agent system** to auto-generate Dockerfiles, CI/CD pipelines, and Railway deployment configurations.
- Reduced manual deployment setup time by **60%+** through automated containerization and pipeline generation.
- Developed a React dashboard enabling **one-click deployments** and real-time deployment status tracking.

Urja Arena | *Next.js, React, Supabase, Firebase Auth, Gemini API, Serverless Functions* | GitHub | Live **April 2025**

- Built a **gamified environmental learning platform** with quizzes, tasks, competitions, and leaderboards, driving higher student engagement.
- Integrated an **AI-powered chatbot** to provide concept explanations, post-quiz analysis, and personalized learning recommendations.
- Designed role-based workflows for **students and teachers**, enabling task assignments, grading, eco-point rewards, and performance analytics.
- Implemented real-time features using **Supabase** for chats, leaderboards, and progress tracking with secure Firebase authentication.

Experience

GeeksforGeeks Student Chapter - Bennett University **Aug. 2023 – 2024**
Management Team Member *Greater Noida, India*

- Orchestrated **8+ hackathons** managing **500+ participants** and **3-day** event logistics.

IEEE Student Branch - Bennett University **Aug. 2023 – 2024**
Technical Team *Greater Noida, India*

- Engineered club management website using **React.js, Node.js, MongoDB** serving **300+ members** with **95%** uptime.
- Managed technical infrastructure for **12+ workshops**, live streaming **500+ viewers** with zero downtime.

Research Paper

Privacy-Preserving Federated Learning in Healthcare **2025**
Research Paper

- Built a **federated learning MLP** on the **UCI Cleveland Heart Disease dataset (297 samples, 13 features)** enabling decentralized training without raw data sharing.
- Applied **Differential Privacy, Homomorphic Encryption, and SMPC** to defend against **model inversion, membership inference, and poisoning attacks**.
- Evaluated performance using an **80/20 train-test split per client**, analyzing accuracy, computational overhead, and robustness.
- Maintained model utility while improving **HIPAA/GDPR-aligned compliance** through balanced privacy-performance trade-offs.

Coding Profiles

LeetCode: leetcode.com/your_leetcode_Smritirai
GeeksforGeeks: [geeksforgeeks.org/user/your_gfg_smritirai](https://www.geeksforgeeks.org/user/your_gfg_smritirai)

Education

Bennett University, Greater Noida
B.Tech in Computer Science and Engineering — CGPA: 8.46

2023 – 2027
Specialization: Cloud Computing
